PROFILE

UI/UX and website designer who turns complex digital products into clear, responsive experiences. Combines UX structure, visual systems, interaction design and browser-based prototyping with an AI-assisted workflow directed through Codex. Brings two years of supporting experience across graphic design, motion and client delivery.

AI-ASSISTED WORKFLOW

Directs Codex as a connected workspace for research, UX exploration, visual direction, motion, implementation and QA. AI accelerates execution while design judgment, constraints and final decisions remain human-led.

UI/UX EXPERIENCE

Freelance UI/UX Designer - Crypto Kosh / Elite Crypto Tool Jun 2026 - Present

- Own the redesign of a 32-route crypto analytics platform, from UX audit and information architecture through responsive visual systems, interaction behavior and implementation QA.
- Simplified an outdated, overcomplex interface by restructuring navigation, clarifying hierarchy and creating reusable patterns for data-dense dashboards.
- Built and tested interactive browser prototypes across desktop and mobile, then iterated directly with the client; the redesign is about 90% complete and has received positive client feedback.

VISUAL & MOTION EXPERIENCE

Graphic Designer - TEDx Jaipur Jun 2025 - Jan 2026

- Collaborated in a five-person design team to create speaker announcements, event promotions, social media graphics and motion content using Canva and After Effects.

Video Editor - Independent YouTube Client May 2025 - Jun 2025

- Independently handled the complete video-editing workflow in After Effects, from assembly and pacing through final delivery.

Graphic Designer - Swachhathon Nov 2024 - Jan 2025

- Designed campaign graphics, announcements and short-form video content for digital communication.

Social Media Marketing Intern - Sunmoon Timber Plywood & Hardware May 2024 - Jul 2024

- Created branded social media graphics and edited promotional videos for the company's digital presence.
